PROFILE SUMMARY

Software engineer with 3+ years of ASP.NET Core and SQL Server experience and a one-year IT internship. Develops dental claims applications and REST APIs, with additional .NET 9 and PostgreSQL project work. Focuses on refactoring, database performance and IIS deployment. Technical knowledge includes Angular and microservices concepts, with AI-assisted development and testing.

WORK EXPERIENCE

ASP.NET Core Developer

Apr 2023 - Present

Pranam IT Solution

- Maintain rules for denials, pending claims, fee schedules, deductibles, benefit limits and pre-authorization penalties.
- Build APIs and data access for eligibility, claim imports, year-to-date usage and utilization reports.
- Refactor C# code; tune SQL queries, indexing and stored procedures to improve application performance.
- Generate EOB, pre-authorization PDF and Excel/CSV reports; apply JWT and role-based access controls.
- Manage IIS deployments and GitLab source control; use Claude Code for development assistance.

IT Intern

Apr 2022 - Apr 2023

Pranam IT Solution

- Practised C#/ASP.NET application logic, debugging and problem solving.
- Practised SQL Server queries, ADO.NET and LINQ with Visual Studio and SSMS.
- Practised HTML, CSS, JavaScript, jQuery and Bootstrap; used Git source control.

TECHNICAL SKILLS

Backend development C#, ASP.NET, ASP.NET Core Web API / REST, .NET 6, .NET 9, .NET Framework 4.7.2, MVC, Razor Pages and server-side Blazor.

Data access and formats Entity Framework Core 7, Fluent API, EF 6, Dapper, ADO.NET (System.Data.SqlClient), LINQ, EFCore.BulkExtensions, XML and JSON.

TECHNICAL SKILLS

Database and performance SQL Server, PostgreSQL, MongoDB; T-SQL, stored procedures, views, functions, MERGE imports, query optimization, indexing strategies and stored procedure optimization.

Frontend development Angular (14, 17), AngularJS, HTML5, CSS3, JavaScript, TypeScript, Bootstrap, jQuery, responsive design, cross-browser compatibility and component-based architecture.

Architecture and patterns Layered architecture, layered monolith, Repository pattern, CQRS (Command Query Responsibility Segregation), MediatR, dependency injection, middleware, in-memory caching, hosted services and soft delete; microservices concepts.

Authentication and validation JWT bearer and cookie authentication, role-based access control (RBAC), custom authorization filters, OTP and password reset flows, and FluentValidation.

Rules and healthcare domain Microsoft RulesEngine with JSON workflows; dental claims adjudication, CDT/ADA codes, EOB, eligibility, coordination of benefits (COB), fee schedules and pre-authorization.

Documents and integration Rotativa / wkhtmltopdf, iText 7, PDFsharp, EPPlus, ClosedXML, Excel/CSV export, fixed-width and CSV imports, staging tables, SFTP (SSH.NET) and SMTP email.

Testing and observability xUnit, Moq, unit/API testing, debugging, Swagger / OpenAPI (Swashbuckle), Serilog, Seq, log4net and New Relic.

TOOLS AND DELIVERY

Delivery and engineering GitLab CI/CD, SonarQube scan stage, IIS deployment, code refactoring, performance improvement, code reviews, pull requests, Agile/Scrum, sprint planning, SOLID principles, secure coding and documentation.

Development tools Visual Studio, SQL Server Management Studio (SSMS), Git, GitLab, GitHub, Postman, Swagger UI, Figma, ClickUp and FileZilla.

AI-assisted development Claude Code, Codex, ChatGPT, Cursor, Perplexity and GitHub Copilot.

EDUCATION

Bachelor of Computer Applications

Apr 2023 - Mar 2026

Hemchandracharya North Gujarat University (HNGU)

PERSONAL DETAILS

Languages: Hindi, Gujarati, English

Date of birth: 23 August 2002 | Marital status: Married
